This is some sample text.

Here are some sample text, in code style: `printf("Hello world!");`

There are plenty of commands defined for mathematical (pure and discrete) symbols and formulae - feel free to look them up in the heading section of the `.tex` file.

# 1 Sample Section, Numbered

**Question 1. (42 marks)** This is a sample question.

This is the sample sample, with the paragraph shaded.

*This template is pretty good at turning college worksheets into paperless format.*
